Spider marble

Introduction

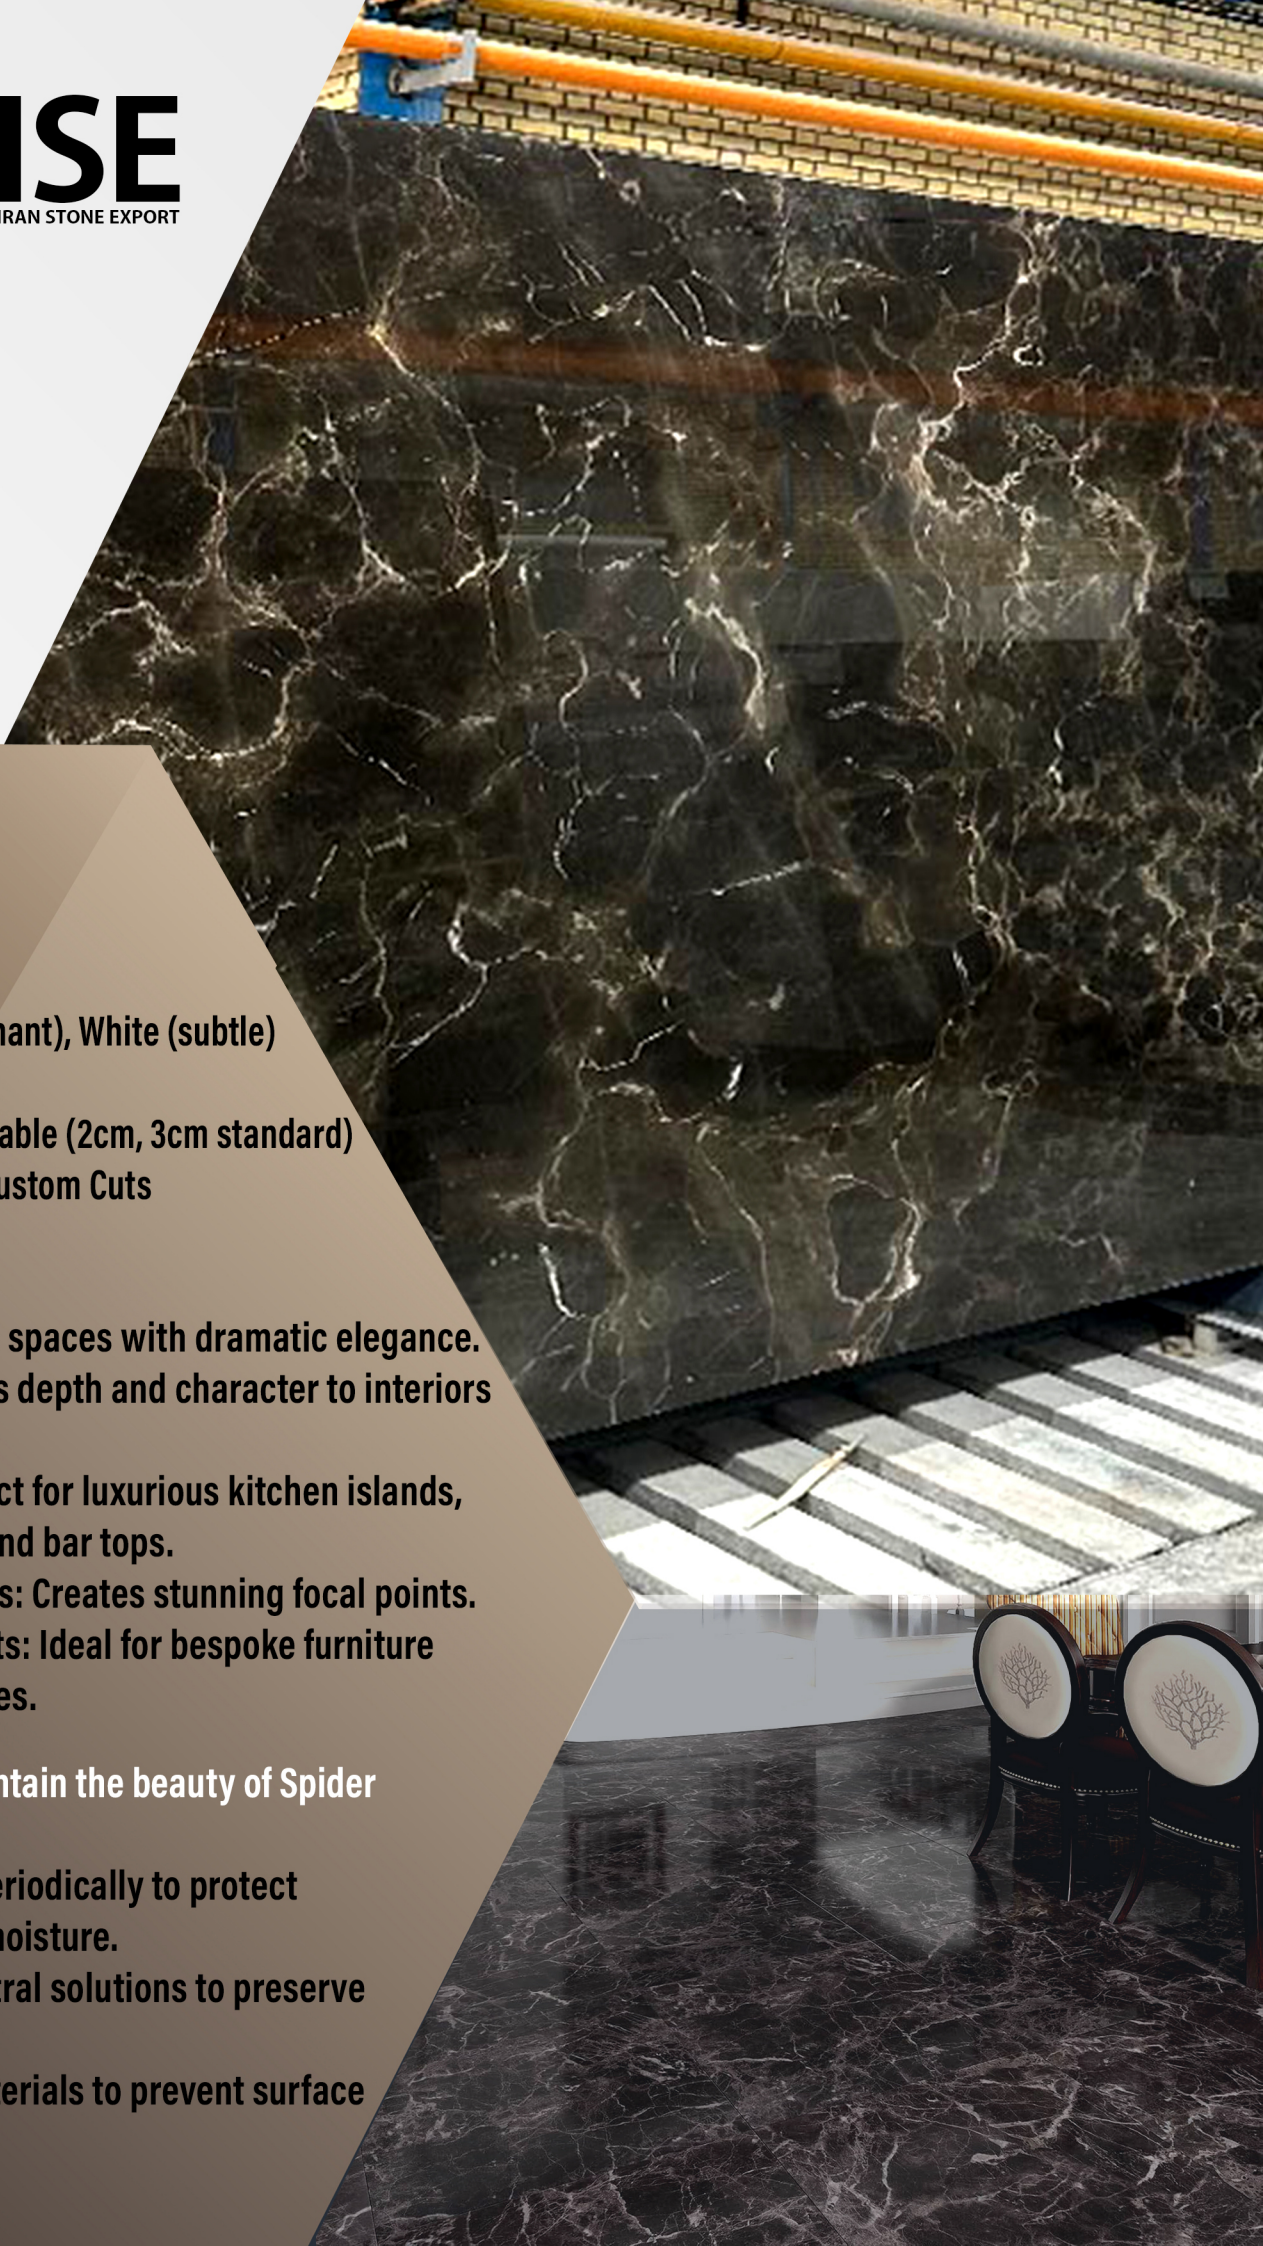

Spider Black Marble is a luxurious natural stone characterized by its dramatic black background, enhanced by golden spider-web veins and subtle white streaks. This unique combination makes it an exquisite choice for elevating the aesthetic appeal of any interior or architectural project.

Key Features

- Rich black base with striking golden and white veining.
- Polished finish for a high-gloss, sophisticated look.
- Durable and resistant to wear, ideal for long-term applications.
- Unique patterns, ensuring every slab is one-of-a-kind.
- Versatile use for both modern and classic designs.

Specifications

Primary Color :Black

Veins : Golden (dominant), White (subtle)

Finish : Polished

Thickness : Customizable (2cm, 3cm standard)

Forms : Slabs, Tiles, Custom Cuts

Applications

- **Flooring:** Enhances spaces with dramatic elegance.
- **Wall Cladding:** Adds depth and character to interiors and exteriors.
- **Countertops:** Perfect for luxurious kitchen islands, bathroom vanities, and bar tops.
- **Fireplace Surrounds:** Creates stunning focal points.
- **Decorative Elements:** Ideal for bespoke furniture and artistic sculptures.

Maintenance To maintain the beauty of Spider Black Marble:

- Seal the surface periodically to protect against stains and moisture.
- Clean with pH-neutral solutions to preserve its polished finish.
- Avoid abrasive materials to prevent surface damage.
